* Comment. Rail traffic across the Frankfurt/Oder border crossing point was normal with an average of 12 trains daily.

25X1

A total of 10 trains per day in each direction is scheduled via that border crossing point for the Soviet transit traffic across Poland.

25X1

The number of trains passing through Kuestrin-Kietz is still below the average volume of traffic in 1950. A total of six trains in each direction is scheduled for the Soviet transit traffic at that border crossing point.
